The Financial Situation a Chief Factor in Speculation.

Much Talk Regarding the Big Loan to Germany-Debt Due the Stand. ard Oil Trust Said to Have Leen Paid off in This Any Without Taking Gold Away From Berlin.

NEW YORK, Sept. 16 .- The financial situntion is one of the chief factors now under consideration by Wall Street men. The professionals are watching for a temporary hardening of money rates, especially on call loans, and the big interests are figuring on the probabilities of the more extended periods which will be required for their larger plans. The outlook is for stiffer rates this week, and for some time to come, but no stringency should be looked for. As a matter of fact, conditions are much better in every way than they usually are at this season. The bank statement yesterday, though showing a less reserve than was held by the banks at the end of the previous week, is, nevertheless, extremely favorable when compared with the surplus of previous years. There have only been two years out of the last fifteen when the banks showed as great a surplus in their lawful money reserve upon the corresponding date, and one of those represents almost precisely the surplus of last week. Inci-dentally, it may be remarked that the notual reserve held by the New York banks was never so great at any correaponding date as it is now.

The surplus reserve held in New York over the 25 per cent required by law has been as follows on the dates most nearly approximating to September 15, viz:

| September | 15. | 1900 | 和19.50% |

fifteen years show anything near the sur nork was "copper-fastened and tree-

The most important event of the week from the standpoint of Wall Street was the announcement of the flotation here of a large German loan, the details of which are officially announced as follows:

"The negotiations cover a purchase by Kühn, Loeb & Co. and the National City Bank of \$0,000,000 marks 4 per cent treasury notes of the German Empire, mattr-

The fact that foreign loans aggregating \$218,000,000 have been taken in great part in Wall Street since last February is a striking illustration of the growing strength of New York as a financial centre, though it is a direct result of the large excess of exports over imports the last two

years, which has put the whole world in the position of debter to the United States. As a matter of fact, the bond transaction means that Germany has adopted this measure of maying the Standard (ii) Co. measure of paying the Standard Oil Com-pany a debt of \$20,000,800, which it ower for petroleum, and the payment of which has been delayed for several mouths by the shrewd expedients of the bankers of Berlin and of Frankfort-on-the-Main, which is known as the home of foreign ex-change. There is a strait, however, to international credit as there is to the time international credit, as there is to the time your taller will allow you to pay for your guit of clothes. As a rule, international credits are not extended beyond sixty or ninety days. Foreign bankers have been doing everything possible to prevent the thipment of gold from Berlin to the United States in payment of the International debt. The local bankers at last refused to delay the collection of these foreign hitle any longer, and so the Berlin bankers were forced to our their bankers. rare forced to put their heads together nd arrange for the payment of the debt. The shipment of \$20,000,000 of gold from Germany to the United States at this time would have demoralised the money market in Berlin, and would probably have caused a panic which would have been widespread in its consequences. In order to keep the money at home and at the same time supply the German Gov-ernment with the funds it needs for the conducting of a campaign in China, the bankers and the Government have, therefore arranged the loan which they are about to float in the United States. The Gebt to the Standard Oil Company will thereby be canceled, and the money will remain in Berlin. It was a great

plus now held by the banks, while in 1890 there was a deficit of \$3.306.025 below of the New York banks for the last week as compared with the statement for the fore, as if the financial condition of New Sept. 3, 1801 Sept. 5, 1801

ing in equal proportions in 19 4 and 15 5.
There is no syndicate, the purchasing bankers taking over the loan, upon their own initiative, from the German Releas-bank (the Imperial German Releas-bank) (the Imperial German Releas-bank (the Imperial German Releas-bank (the Imperial German Releas-bank (the Imperial German Releas-bank) (the Imperial German Releas-bank (the Imperial German Releas-bank (the Imperial German Releas-bank (the Imperial German Releas-bank) (the Imperial German Releas-bank (the Imperial German Releas-b

The anthracite ralircads which will be affected by the strike are the following: Philadelphia and Reading, Lehigh Valley, Delaware, Lackawanna and Western Pennsylvania, Central Railroad of New Jersey, Delaware and Huds.n, Erie, Pennsylvania Coal Company, New York, Ontario and Western and Delawara, Sus quenanna and Schuylkill. These are the ten great anthracite producers of the country, in the order of their importance as producers.

There is much in the iron .rade news the securities of the iron and steel trusts. These stocks will be among the best liked by the speculative element if they have any further material declina-Reviewing the iron and steel market, tha "London Statist" said last week;

"In spite of the rise of coal and pigs, the Scotch malleable frommakers have within a few weeks reduced bars by 19s because they were compelled to do so by American competition. Yet they obtained little or no business by the reduction. Several works had to shut down. In the steel trade consumers' orders are withsteel trade consumers orders are with-held, because they say they can buy or expect to buy cheaper from American and German makers. We hear that says plates were brought from America as Glasgow for trans-shipment there to the East at a lower cost, including freight and charges, than the price of the ocal makers. Tubemakers import American strips very much cheaper than they can buy them at home, and it is presumed American tubemaking can and will compete with ours. And so on all through the steel trade. Hardly a steamer coming from America but has some iron or steel on board."

the strength of which is strongly contrasted with the English syndicate by the fact that the latter were compelled to thip nearly \$20,000,000 of gold, while the Standard Oil syndicate will not disturb the money market by the shipment of a single dollar's worth.

Meantime cotton goods cannot be enade with a profit at current prices for cotton and goods without a decrease in the cost of manufacture. The cotton contained in a cut of cloth costs about 80 cents, while the cut at present prices is worth about \$1.32. The cost of manufacture and the profit, therefore, have to come out of 52 cents per cut. Weavers were getting 19 cents per cut when the margin was over 78 cents, and they are receiving 19.8 cents, now, with a margin of 52 cents. There must be either lower prices for cutton, higher prices for goods, reduced wages, or the stopping of mills.

BALTIMORE PRICE CURRENT.

Wholesale Provision and Grain Mar. ket Quotations in Full.

BALTIMORE, Sept. 15 .- Following are today's quotations in the local wholesale provision and grain markets.

Wheat-Stock in clevators, 1,640,673 hus. The market for Southern was narrow owing to the meagre offerings, and in sym pathy with Western prices were somewhat casier, No. 2 red being quoted at 74 1-2c, with steamer about 2c off. Sample lots, as to quality and condition, brough: 72c, 75c,
